

These instructions are intended for installing Avenue on Kindle Fire devices **only**. If installing on any other mobile device, please go to [Google's Play Store](#) and search **Avenue Boulevard** to install.

Before proceeding, you will need to ensure that your device allows installing files from unknown sources.

1. Go to **Settings**, and select **Security**.
2. Check the option **Unknown sources**, then **OK** to confirm.

### **Installing on a Kindle Fire:**

1. Sign in to your Main Street account at [www.mainstsoftware.com](http://www.mainstsoftware.com) and from *Downloads* section go to **Avenue™**.
2. Click the **Download** button next to Avenue for Android. If asked, confirm **Yes** to download the file.
3. When the download has finished, click **Open**.
4. Click on the newly downloaded file, **com.mainstsoftware.com.Avenue.apk**.
5. Click **Install**, then **Open**.

When finished, we recommend that you go back to Settings, select Security and uncheck the option Unknown sources. If you need further assistance, please contact our office.
